WILL COMBINE EFFORTS TO STAMP OUT DEADLY SCABIES

During the grazing season of 1909, the forest service will again co-operate with the bureau of animal industry, and the state and territorial officials in efforts to stamp out the disease known as scabies, which exists among the sheep in a number of the western states and territories. This work has been carried on by the bureau of animal industry for several years past. The forest service has endeavored to assist the bureau as well as the state authorities, in enforcing the law by refusing to admit any sheep on a national forest, within the prescribed states and territories, that were not accompanied by a certificate of inspection, signed by an inspector of the bureau of animal industry, to the effect that they were free from the disease or had been dipped in accordance with the regulations of the bureau.

In nearly all of the western sheep raising states and territories, the state

boards, charged with protecting the health of the live stock, have been very active in suppressing this disease, and between the bureau of animal industry, the state authorities, and the forest service, it has practically been wiped out of many of the states and territories and greatly reduced in the others.

During the season of 1909 the work will be continued in the states of Colorado, Utah, Nevada, California, and the territories of New Mexico and Arizona, and it is hoped that at the close of the present year the result will be so satisfactory that considerable parts of this area may also be pronounced free from the disease and relieved from quarantine restrictions. Wherever it has been found necessary to burn the corrals, counting chutes and other improvements on a range which were possibly infested with this disease, the material for new ones has been furnished to the stockmen free of charge by the forest service.

He wasn't very wise;

"I'll give my wife credit for not causing me to be swamped by big hat bills of hers," declared the husband boastfully in the presence of his wife's lady guests. "All the hat bills I get are small ones, which, however, come in very, very often, although I haven't observed a new bonnet on her since Easter."

"I am so glad you are pleased," rejoined the wife, coming unexpectedly into the room. "The fact is you are still paying for that last Easter bonnet, the bill for which the milliner is sending you in installments."

REAL, LIVE COWBOY BASE BALL TEAM

A real live cowboy baseball team is boasted by the thriving town of Des Moines in Union county. This team went to Raton last Sunday and defeated the Gate city aggregation by a score of 5 to 4. The Des Moines club was a unique combination, the fielders playing the game on horseback, while the balance of the team wore sombreros, spurs and chaps. They are contemplating a tour of the southwest later in the summer.

Women Who Are Envied.

Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or kidney troubles show in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate stomach, liver and kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at all druggists.

It's an easy matter to get married on a salary of \$6 a week, but staying married on it is another proposition.

The hats women are wearing now are certainly a blooming sight.
